

8 November 2015

**RE: Replication Package for Daniel (2015) *Career Behaviour and the European Parliament: All Roads Lead Through Brussels?* Oxford University Press.**

Dear User:

This package contains three files: the present cover letter, a STATA .dta file of the dataset that was used in the book, and a do file that contains STATA commands for replicating all tables and operations published in the book.

Please consider the following points of information:

*Citations and Availability*

This data is made publicly available. Please be sure to cite the data sources, author, and origin correctly for any further use. Please also alert me about any noteworthy uses of the data.

The citation of record for this dataset is the Daniel (2015) monograph.

*Codebook*

Original coding decisions are described in the 'notes' section of the .dta file. Additional coding information may be found in the book text. Please contact me with any further questions.

*Revisions*

The attached .dta file was last revised for accuracy on 8 November 2015. Slight changes may have occurred since the original publication of the book in April 2015.

*Errata*

Please advise me directly of any known inaccuracies in the data so that they may be corrected for further research with the data. It is my hope that this dataset will continue to be updated and expanded over time.

Thank you for your interest in my research.

Sincerely,

A handwritten signature in black ink that reads "William T. Daniel". The script is cursive and fluid, with the first name "William" and last name "Daniel" clearly legible.

**William T Daniel, PhD**

*Assistant Professor of Political Science*
